Wilier TRIESTINA

A NEW DIMENSION
IN GRAVEL RACING

F Bar Aero Handlebar

A clean, minimalist design to reduce wind turbulence and improve aesthetics, in pure Wilier style.

The F Bar handlebar is made of monocoque carbon and features a redesigned shape compared to the Filante Bar, with a weight of 380 grams.

F Bar, like the other monocoque handlebars in the Wilier range, is also compatible with our other premium bikes and available in 2 sizes.

Gravel Racing Geometry

Compact wheelbase and short rear triangle for fast acceleration; balanced angles for precise, safe handling, especially off-road.

Design and Style: the 1990s touch

Rave SLR ID2 is not just a high-performance bike - it is a visual statement inspired by the energy of underground culture and the digital icons of the 1990s.

Its aesthetics combine pixelated elements with bold colours to create a unique identity

Brand New Miche Graff Aero 48

Precision, control and raw speed. The three top-of-the-range Rave SLR ID2 set-ups come with the new Miche Graff Aero 48, the carbon wheels engineered for top-level gravel racing.

A wheelset that pushes the boundaries of performance, reliability, and control – across all types of terrain. Every aspect is designed for riders with a racing mindset: athletes for whom every second, every turn, every watt counts.

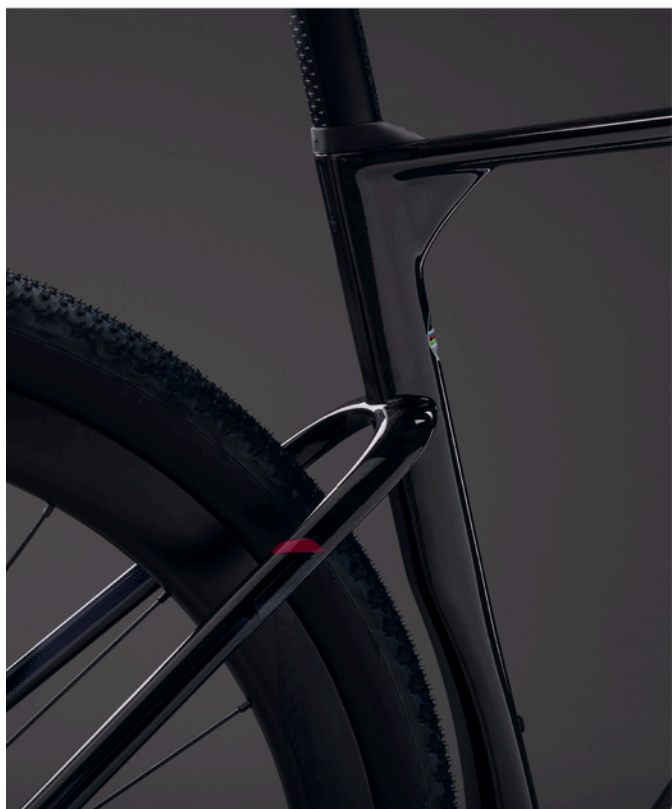

GLITCH BLACK

The black that breaks the code

A sophisticated jet black, with exposed carbon fibres and chrome graphic details evocative of digital glitches. This colour, reflecting feistiness, elegance and technology, is ideal for lovers of minimalist aesthetics yet with a rebellious soul. Glitch Black is the perfect choice for those seeking a pure, timeless racing look.

GLITCH BLACK; GLOSSY- Color Code V11

PIXEL GREEN

The colour of pure energy

A bright, vibrant green inspired by the fluorescent pixels of CRT screens and the laser beams of rave parties. Pixel Green stands for speed, visibility and boldness. Perfect for those seeking to dominate gravel routes with a distinctive and modern style.

PIXEL GREEN; MATT-Color Code V10

NEON PURPLE

A nod to electronic nights

This electric purple colourway nods to the neon lights of futuristic cities and to nights spent in underground clubs. Neon Purple defies convention, celebrating freedom and creativity. It is designed for cyclists who wish to stand out with a distinctive, unconventional colourway.

NEON PURPLE; GLOSSY-Color Code V12

BYTE CREAM

High-definition vintage

A modern retro style, with cream and deep red accents inspired by the early computers and consoles of the 1980s and '90s. Refined yet impactful, this is a tribute to the timeless vintage aesthetic that characterised an era.

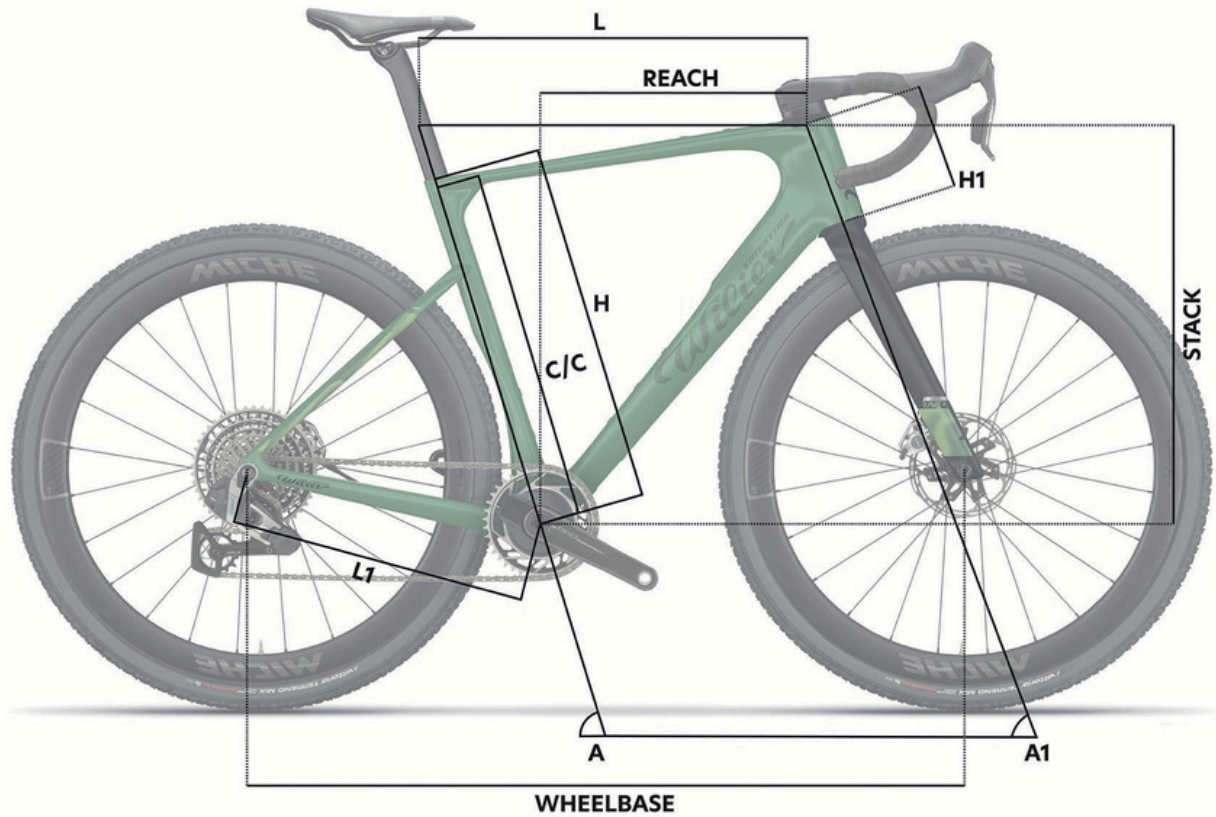

BYTE CREAM; MATT- Color Code V13
